Whites and Neutrals

There's a reason white is a Mykonos staple—it reflects the architecture and adds a soft, dreamy glow to your photos. When paired with earthy neutrals like sand, tan, or light gray, the result is clean, classic, and effortlessly Greek.

Bold Mediterranean Tones

Nothing says vacation in Mykonos like vibrant hues. Rich blues, corals, and emerald greens look spectacular against the crisp white buildings and aquamarine waters. This palette brings the Mediterranean to life in your outfit and stands out beautifully in photos.

Soft Pastels

Soft pastels like blush, lavender, and powder blue add a romantic and ethereal vibe to your photos. These tones flatter most skin types and create a beautiful contrast with Mykonos's bright light and vivid sky.
